Learning, Teaching and Assessment Strategy

To gain a firm understanding of the subject area and the key issues (as outlined in the syllabus) students will be required to access and engage with a variety of online resources (selected readings, video and audio resources) a designated set text and a module study book that sets out guided reading, self-assessment exercises, case studies and links to additional resources. Module Learning Outcomes 1.2, 2.2, 3.1. In addition, further practical skills are developed via 4 structured on-line tutorial sessions in which students are able to engage in debate with their peers and their tutor about important ideas and contemporary business problems, working to apply formal concepts to solving business problems. Module Learning Outcomes 1.3, 3.3 Throughout the module the emphasis is very much on interactivity and practical application of

knowledge. You will be directed to appropriate primary and secondary sources and you will be required to perform research, evaluation and reflection exercises. You will also be set tasks to monitor your progress in addition to formal assessment. Students have the opportunity to complete a series of online MCQ exercises for each module unit studied. After completing the questions students receive instant feedback on their performance. In addition to this there is the option of completing 2 formative tasks. These tasks involve answering a question(s) on a key issue/theory relating to the module. Written feedback is provided by the module tutor. This relates to module learning outcomes: 1.2, 1.3, 3.3
